SUMMARY

Full-Stack Developer with 1.5+ years experience in SaaS, skilled in React, AWS Cloud, TypeScript, C#, .NET Core, REST APIs, Agile, Git, and performance optimization.

EXPERIENCE

Associate Software Engineer

Acuity Knowledge Partners **July 2022 – August 2023, Bengaluru, India**

· Developed scalable, responsive frontend features using **React.js** and **TypeScript,** for investment banking SaaS products, boosting user engagement by **15%**.
· Improved UI performance by **30%** through optimized rendering and modular React component design, resulting in a **25% faster page load time**.
· Ensured code quality with **85%+ test coverage** (Jest, React Testing Library), reducing production bugs by **20%**.
· Delivered 4**+ features per quarter** across frontend and backend, demonstrating full-stack expertise.
· Contributed to deployment processes as an Associate Software Engineer using AWS **CodePipeline**, **CodeCommit**, **CodeDeploy**, Jenkins. integrated monitoring tools using Datadog to ensure seamless releases and system reliability.
· Collaborated in an **Agile** environment using Jira, Git, and AWS CI/CD tools.

Intern

Acuity Knowledge Partners **February 2022 – June 2022, Bengaluru, India**

· Built full-stack SaaS web applications with **React.js** frontend and **C# (.NET)** backend, focusing on reusable UI components and secure APIs.
· Implemented real-time data visualization and optimized API performance.
· Participated actively in **Agile ceremonies**, including daily standups and sprint retrospectives.
· Gained hands-on experience with **Git**, **CI/CD**, and security testing tools (**SAST**, **DAST**).

SKILLS

· **Frontend:** React.js (16+), TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Next.js
· **Backend:** C#, .NET Core, Node.js
· **API Development:** RESTful APIs,
· **Testing:** React Testing Library, Jest
· **Tools & Practices:** Git, GitHub, Splunk, Dynatrace, Jira, Agile/Scrum, Datadog, Postman
· **Security:** SAST, DAST
· **Cloud**: AWS
· **Databases:** MySQL, SQL Server

PROJECTS

KartApp – E-commerce

Acuity Knowledge Partners

· Developed a full-stack e-commerce web application with a responsive user interface using **React.js** and **Material UI**, ensuring consistent UX across devices.
· Designed and implemented **RESTful APIs** using **ASP.NET Core**, enabling secure and efficient product listing, user authentication, cart management, and order processing.
· Integrated **Entity Framework Core** for seamless database operations with SQL, implementing code-first migrations and relational data modeling.
· Implemented **user authentication and role-based authorization**, managing customer and admin dashboards.

EDUCATION

Postgraduate Diploma in DevOps

Atlantic Technological University · Letterkenny, Donegal · 2024

Master of Computer Applications

Graphic Era (Deemed to be University) · Dehradun, India · 2022 · 8.68

BSc in Computer Science

Tilak College of Science, Commerce and Arts · Navi Mumbai, India · 2020 · 7.02
